He has been an investor for more than fifty years, and most recently, has focused on investigating and reporting on corruption in US financial institutions and agencies of the US government. His seventh novel, *Lilith: Demon of the Night*, is the third in his Detective Louis Martelli, NYPD, mystery thriller series, and has to do with a serial killer who is murdering members of a modern-day vampire cult. His prior Martelli novel, *House of*

Cards: Dead Men Tell No Tales, is based on real events related to the 2008 financial crisis precipitated by the housing bubble. A still earlier Martelli novel of the same genre, *Death by Wall Street: Rampage of the Bulls*, focused on corruption within the Food and Drug Administration (FDA) and the incompetence of the Securities and Exchange Commission (SEC). From December 1961 through early March 1962, Dr. Cohen participated in the 16th Chilean Expedition to the Antarctic. The US Board of Geographic Names in October, 1964, named the geographical feature Cohen Islands, located at 63° 18' S. latitude, 57° 53' W. longitude in the Cape Legoupil area, Antarctica, in his honor. Dr. Cohen's Antarctic Murders Trilogy describes what happened following a robbery of the Banco Central de Chile in Talcahuano in May, 1960. The robbery and the events that took place primarily between May 1960 and March 1962, are described in *Frozen in Time: Murder at the Bottom of the World* (Book I). *Unfinished Business: Pursuit of an Antarctic Killer* (Book II) reveals the events that unfolded between March 1962 and March 1965. *End Game: Irrational Acts, Tragic Consequences* (Book III) takes place in 1965 and resolves most, but not all, of the issues raised in the series. Dr. Cohen's first novel, *Full Circle: A Dream Denied, A Vision Fulfilled*, which is based on his life as a violinist, was published in 2009. Dr. Cohen is a violinist in the Bryn Athyn (PA) Orchestra and particularly enjoys the music of Gustav Mahler. Finally, Dr. Cohen has published more than 350 papers, articles, columns, essays, and interviews, and is a co-author of *The NEW Shortwave Propagation Handbook* (from CQ Communications).
